AMUTECH LTD.

MINE SWEEPER

MINE SWEEPER

DESCRIPTION OF GAME:
Minesweeper puts you into the action. Players get the feeling that they are actually navigating their ships through the water, leaving their mines behind them, hoping to entrap the enemy so their ship will explode upon hitting a mine. Utilizing the player option of pro or novice, the excitement grows with each new formation of the mines, thus involving the players in a mind competition utilizing the display that is provided by Minesweeper.

SCORING OPTION:
The game can be controlled by operator selection. Scoring is operator controlled and can be selected from 3 to 6 points per game.
